Home inventory list

Know what you own, where it is and what it is worth.

Write down one item per row. Add quantity, the room it lives in and a rough value. Keep a photo of every valuable item.

1. Fill the list on paper or keep the ready CSV file as a start.
2. Or open the CSV file in Excel or Google Sheets and type your items in.

Printing and using this sheet is free. The CSV file is for spreadsheet apps; it cannot be imported into the app.
